## Product description

**A handcrafted model of a buggy.** The car is made entirely of stainless steel. As befits an off-road car, the car has a very extensive shock absorption system for both the front and rear axles and movable wheels. The car's roll cage was accurately reproduced in accordance with the original car. The car was named JEGER. It is a handcrafted sculpture with added mechanics - a collector's item.

Approximate dimensions (we can also make other dimensions on request) :

Weight : 2,8 kg / 6,2 lb
