Product description

Unique pirate sailing ship Rusty Bull. The sailing ship was completely hand-made according to an individual idea, inspiration for its implementation comes from many different sources. The main inspirations for creating a sailing ship were:
The series "Black Sails" - American adventure series about pirates
The game - Assassin Creed 4 and the ship "El Dorado"

And our ship also contains inspiration from a **real Galleon - Golden Hind**. This galleon was the flagship of **Francis Drake who sailed it during his travels around the world**. Five other ships took part in this expedition, but only this one returned from it safe. This galleon was created in 1576 in the port of Plymouth.

So our ship, Rusty Bull, contains a lot of sources of inspiration and contains all that is best in them. It is made entirely of stainless steel by our master metalworker. A lot of things on our sailing ship are movable, just like in a real ship. This is a true pirate ship, the king of the seas of yesteryear, the desire of every pirate.

Dimensions of the presented ship:

Weight 8,2 kg 18,1 pounds

Lenght 63 cm \ 25 inch,

Height 62 cm \ 24,5 inch

Width 16 cm \ 6,3 inch
