Product description

California - a large handcrafted steamer made of stainless steel. It is a reconstruction of a real steamer from an old era. This ship is an excellent example of handicraft in which every detail has been taken care of. The deck of the ship is made of single planks, all rigging is also made of stainless steel. Many additional elements on board make the steamer look very realistic. **The steamer is extra large size 107 cm (42 inch) long, 52 cm (20.5 inch) high, weight 13 kg (28.7 lb)** A steamer can be a perfect gift for a loved one, as well as to decorate your home. The steamship was made entirely in our artistic blacksmithing workshop. At your request, we can also make any other ship model

California - a handcrafted model of a steamer

The model is made entirely of stainless steel

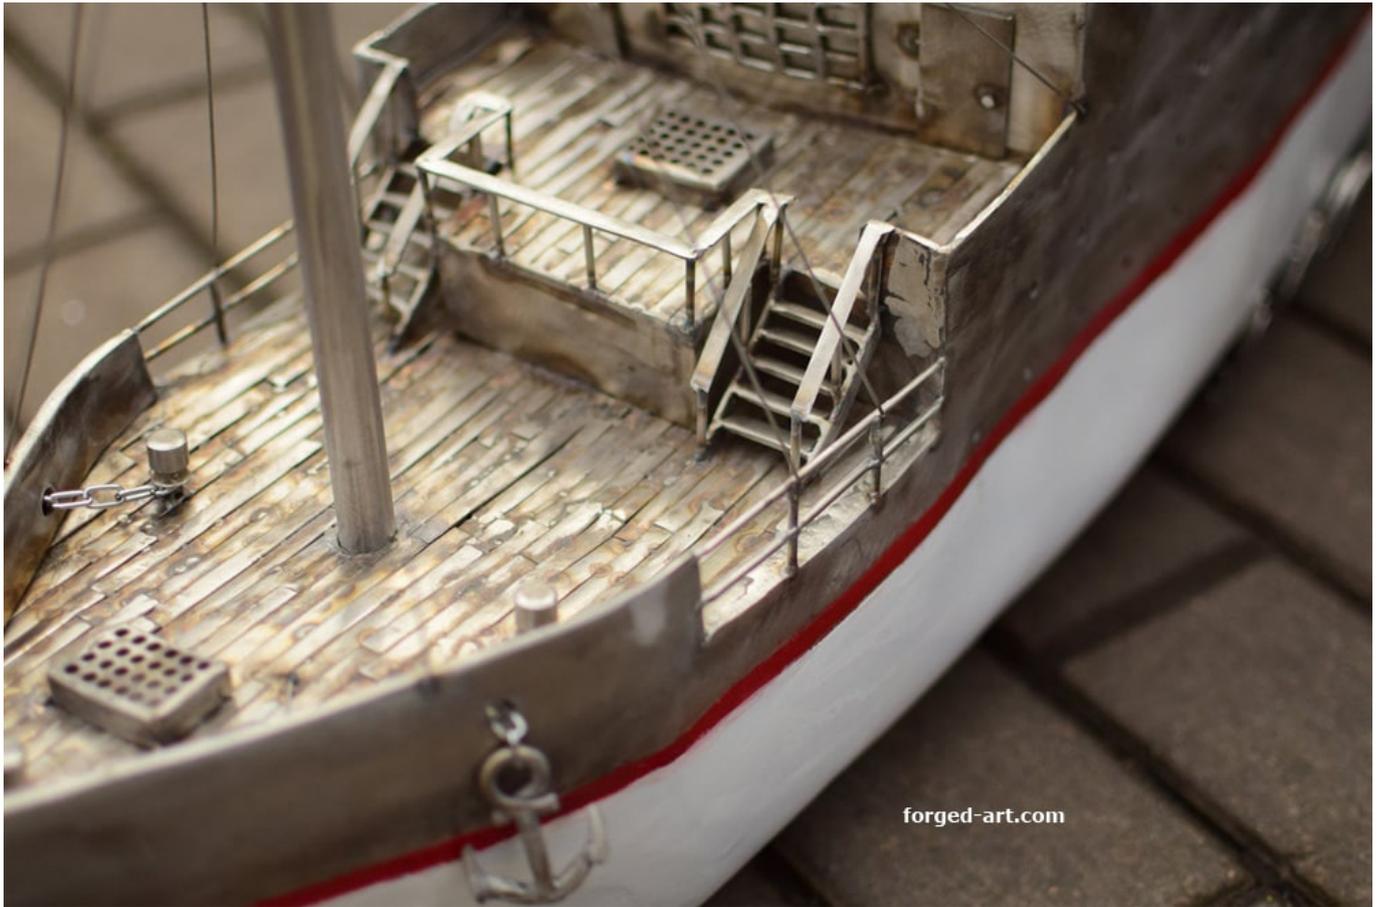

The model is very large and carefully made

We can make any historical ship model based on its photos

The deck of the ship is made of hundreds of hand-made elements

We make any models of ships on request
