Product description

Handmade Hot Rod from the movie Mad Max - Fury Road. The car was made entirely of stainless steel. The individual elements of the car have been precisely fitted with attention to every smallest detail. The doors of the model are opened, and the interior of the car has also been accurately reproduced. The seat in the car has an imitation upholstery and there are 2 butles with nitrous oxide (NOS). The car was also equipped with mechanics - the car has a complicated system of amortization of individual axles. It is a very complicated and demanding job, intended for true connoisseurs. The car is very pleasant to the touch because it is made of polished stainless steel, it is not painted, thanks to which it has a very noble look. On the radiator grille there is a fine mesh, also made of stainless steel, on which we placed the hallmark of the sect from the film (skull on fire).

Dimensions of the depicted car:

Weight : 2,5 kg / 5,5 lb

Height : 11 cm / 4,3 inch

Width : 13 cm / 5,1 inch

Length : 28 cm / 11, inch

We can also make a larger model on request
