### Product description

**A handcrafted steampunk motorcycle.** The motorcycle is made entirely of stainless steel, including all details. High mapping accuracy. It is a very noble sculpture, there are no two identical motorcycles because each is made by hand and the movements of the human hand are impossible to reproduce each time. Thanks to this, each subsequent exemplar is slightly different from the previous one, which gives our sculptures a character. We make every effort to ensure that each of our next motorcycle is more and more perfect. It is the perfect gift for automotive and motorcycle enthusiasts.

Dimensions of the presented motorcycle:

Weight : 1,5 kg / 3,3 lb

Height : 12 cm / 4,7 inch
